**CALL 1-800-803-9256**

MIDWEST's used and new surplus bus plug inventory is changing constantly. Frequently, bus plugs are sold even before they have been placed into MIDWEST's Web site inventory. If you don't see what you are looking for, please call 800.803.9256 or 414.461.8200 and speak to one of our [Engineering Service Technicians](#) for immediate help.

For Technical Specifications and Accessories, see Square D Product Catalog.

**Reconditioned Bug Plugs** - The Bug Plug has been reconditioned per MIDWEST's rigorous service procedures based on 30 years experience. The bug plug has been maintained and refurbished per industry standards and per MIDWEST's Quality Control Program (QCP). The services include applicable internal and external procedures, repairs, and replacement of deficient components. In addition to standard electrical tests, MIDWEST also performs live function tests on the Bus Plug. These services far exceed the routine reconditioning of the Bus Plug performed by many bus plug vendors and resellers. MIDWEST certifies the Bus Plug has passed our QCP before shipping.

**New Surplus Bug Plugs** - A "New Surplus" Bug Plug is a bug plug that has never been installed, but is not "New from the Factory" or "New from the Manufacturer or Distributor" of the Bus Plug. It may be referred to as New in the Box, New Surplus, Never Installed, Never Energized, or other such term that avoids the label "New from the Manufacturer." A New Surplus Bus Plug should not be considered new from the manufacturer or manufacturer's Distributor. Surplus and New Surplus Bus Plugs must pass MIDWEST's (QCP) Quality Control Program.
